

Introducing
fans that listen to you.
Atomberg Smart 2.0

Operates on
voice command

Real-time
performance tracking

Energy-efficient
BLDC motor

Google is a trademark of Google LLC.

From ordinary to modern & sleek designs.

From regulator based operation to seamless remote
-controlled mechanism.

From the inefficient induction motors to highly efficient
BLDC motors.

Fans have come a long way

Atomberg had ushered in a new era for fans a few years
ago. And we are ready to disrupt once again.

The brand is on its way to change the way India thinks about
fans.

So, fasten your seat belts and gear up
for the joyride with

**IOT-enabled Smart 2.0 fans
from Atomberg.**

In-app Voice Command

Now, control your fan from the Atomberg Home app. Adding convenience to the list of benefits, the voice commands get transmitted over Bluetooth in case you don't have an internet connection.

Performance Analytics

Our fans come with several performance indicators, including the lifetime metrics of the app, run time, power consumption, amount saved on the electricity bill, and CO2 saved. There's even collated data formatted to allow you to share it on social media. If you have the best, flaunt it. Why not?

Compatible with Alexa and Google Home

Link your Atomberg Home account with Alexa and Google in two clicks. It's seamless. PS: Hindi commands are available.

Google is a trademark of Google LLC.

Guest mode

Visitors don't need to sign up to use the Atomberg Home app. The in-app voice control is also compatible with this mode.

Note: Alexa, Google linking and Family Management doesn't work in the Guest Mode.

Bluetooth Control

No WiFi? No worries. The fan and the app converse silently, seamlessly switching between WiFi and Bluetooth when the need arises.

All Atomberg fans are 5-star rated by BEE and highly energy-efficient.
